

 HYPERLOCAL COMMERCE REVOLUTION

Local Buddy

Empowering 30M+ Neighborhood Kiranas with Zero-Commission Storefronts, 1-Click WhatsApp Orders & 5-Min Micro-Consultations.

0% Commission

Keep 100% of profits with zero aggregator cut.

1-Click WhatsApp

Direct conversational checkout & fast dispatch.

5-Min Advice

Micro-consults with local pros @ nominal fee.

⚠️ THE REAL PROBLEM

Neighborhood Retail is Under Threat

Local merchants and skilled tradesmen are squeezed by predatory aggregator fees and complex tools.

📈 20% to 30% Aggregator Commissions

Quick-commerce dark stores and gig apps eat into thin margins of independent neighborhood shops.

🌿 Bloated & Costly POS Hardware

Existing retail ERP/POS software is too complex, expensive, and requires hardware shopkeepers avoid.

🚫 Heavy Fees for Minor Guidance

Customers must pay full visit charges even when they just need 5 minutes of diagnosis or troubleshooting.

 OUR SOLUTION

Unified Hyperlocal Ecosystem

A lightweight, seamless web application connecting merchants, customers, and verified tradesmen.

1

Merchant Hub

Real-time inventory, restock alerts & profit margin analytics.

2

Storefront

Digital catalog with live stock & 1-tap WhatsApp cart ordering.

3

5-Min Advice

Instant expert triage for minimal nominal fee (₹20-₹49).

4

Service Roster

Verified plumbers, electricians & direct doorstep booking.

INNOVATION SPOTLIGHT

5-Min Micro-Consultations & Advice

Customers connect directly with neighborhood experts for quick 5-min guidance at a minimal nominal fee.

Instant Triage

Quick guidance for electrical, plumbing, or DIY doubts without expensive visit costs.

Minimal Micro-Fee

Ultra-accessible (₹20 to ₹49 for 5 mins) paid instantly via 1-tap UPI.

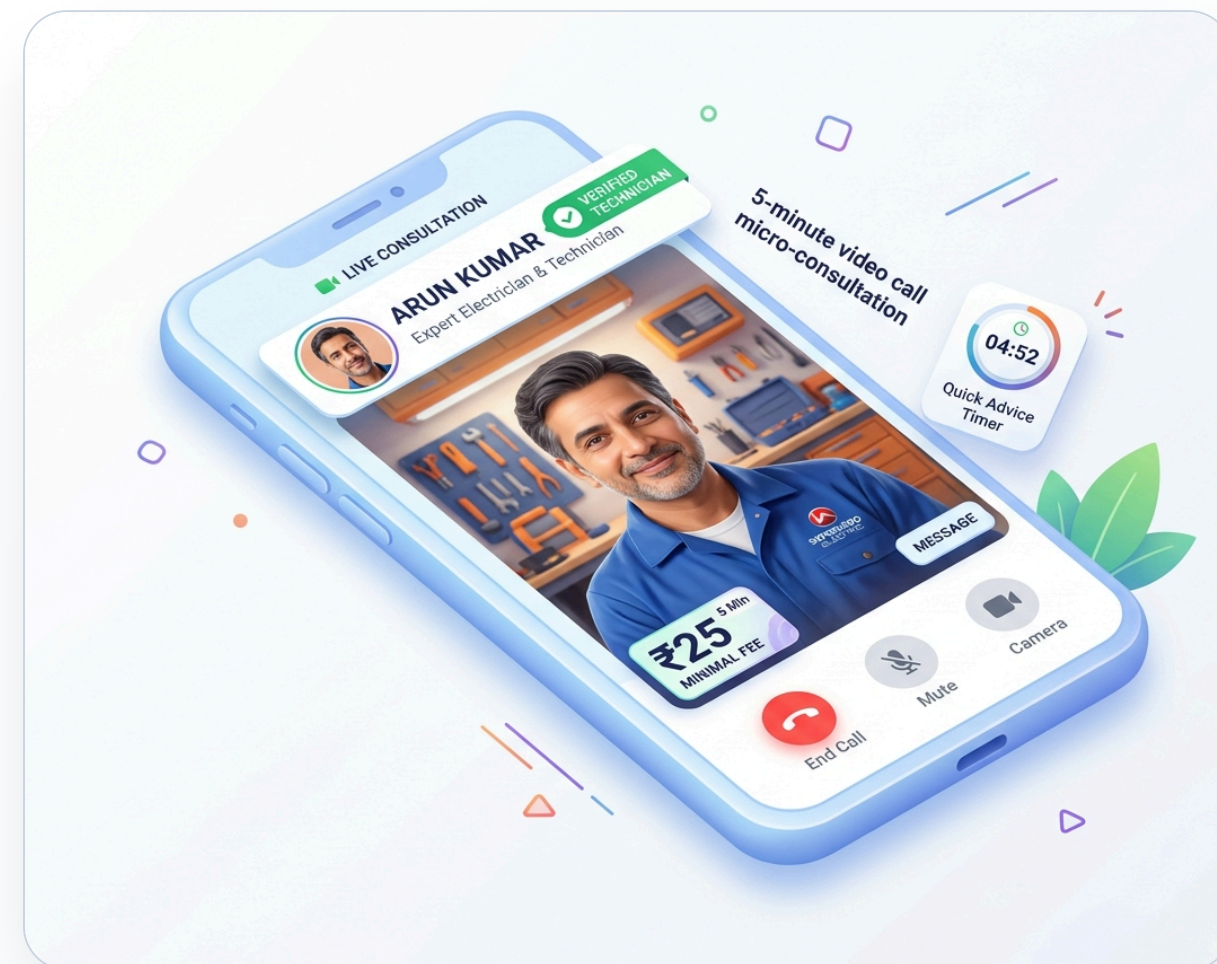

Pro Monetization

Technicians & specialists monetize spare minutes and earn trust.

Doorstep Upgrade

Converts simple 5-min calls into full verified doorstep repair bookings.

 **SEAMLESS FLOW**

Frictionless 3-Step Experience

Designed for non-tech-savvy shopkeepers & everyday neighborhood shoppers.

Step 1

Merchant Setup

Shopkeeper adds products with cost/selling price. App calculates live valuation & low-stock alerts automatically.

Step 2

Browse or Consult

Shoppers browse stock or request a 5-min quick expert advice session with 1 click via smartphone.

Step 3

Instant WhatsApp

Pre-formatted order string with itemized bill & GPS address is delivered directly to merchant WhatsApp.

 MARKET SIZE

A Massive Hyperlocal Opportunity

Targeting unorganized retail and neighborhood services across Tier 1, 2, and 3 cities.

\$800B+

Total Addressable Market

Indian unorganized retail market with over 30M+ local Kirana & neighborhood shops.

500M+

WhatsApp User Base

Zero friction user adoption because every customer and shopkeeper already uses WhatsApp daily.

0%

Commission Model

Unbeatable value proposition compared to 20–30% charged by quick-commerce and large aggregator platforms.

 BUSINESS MODEL

Sustainable Monetization

Freemium core with high-margin value-added services & micro-transactions.

Free Core

Basic inventory & digital storefront free forever to drive viral adoption.

Micro-Consults

Nominal ₹3–₹5 platform share per 5–min expert advice call session.

Pro SaaS

₹299/mo for automated SMS alerts, GST invoicing, & multi-store analytics.

FinTech & Credit

Khata / credit ledger and merchant micro-financing based on sales velocity.

 STRATEGIC ADVANTAGE

Our Competitive Edge & Launch Vision

Designed from day one for frictionless grassroots adoption and strong community trust.

Zero-Friction Entry

No app install barrier — works seamlessly via web & WhatsApp, removing the biggest hurdle to user adoption.

Hyperlocal Trust Loop

Empowers existing neighborhood vendors and verified local experts rather than replacing them with dark stores.

Dual-Growth Flywheel

Viral merchant word-of-mouth paired with high-frequency 5-min micro-consultations drives organic retention.

"Empowering Every Neighborhood Through Trust, Speed, and Micro-Connections."
